THE BEST LEASE VEHICLE DOWNTIME DEAL IN THE BUSINESS

As New Zealand's biggest heavy vehicle rental and lease company, our lease vehicles have always been covered by exceptional support, but we've taken it to the next level by making things even easier and cheaper for you if your truck needs to be repaired.

Zero downtime

If your vehicle is a new one (less than 12 months old with less than 200,000km travelled), we will credit you for any time it is off the road, outside of scheduled servicing.

Downtime

If your vehicle is over 1 year old we will now provide a credit to you for any time over 96 hours that your lease truck or trailer is off the road for repair. It doesn't matter if the downtime starts on a weekend or public holiday – the clock will keep ticking toward the point where your credit note kicks in.

What about a replacement truck?

As long as there is one available, we will provide a rental vehicle as a replacement, applying your lease credit to that vehicle. Also, for the entire period of downtime, the daily rate of the rental will be the same as the daily rate for your lease vehicle.

This means that after the first 96 hours (or immediately for a new vehicle), a replacement truck or trailer will be provided to you at no additional cost. Miscellaneous items which are not part of your lease, such as RUC, tyres, fuel, insurance, damage and neglect will be charged as normal.

What about an accident?

We have extended our downtime offer to make sure that you will not have to pay for a vehicle that you do not have the use of as a result of an accident.

Once it is confirmed your vehicle will be off the road for a month or more we will suspend your leasing charges from the date of the accident. The time that is suspended will then be added to the end of your lease. The suspended billing will be for a maximum of six months from the time of the accident.

If you need another vehicle during this time, and we have a suitable rental vehicle available, it will be charged at the same lease rate as the vehicle that is off the road.

That's why we're the perfect long-term heavy transport partner.
