The Benefits of Leasing with TR Group

- ▶ **The Right Vehicle for the Job:** TR will source, price, specify, and build the right vehicles based on our experience and understanding of what the vehicle needs to do. This means vehicles with the latest technology put on the road with the optimum specifications to get the job done efficiently and safely.
- ▶ **Maximising Uptime:** We are focused on maximising uptime of our vehicles with robust preventative maintenance plans and by holding a stock of 'swing componentry' for parts that are quicker to replace than rebuild.
- ▶ **Downtime Guarantee:** If your vehicle is new (less than 12 months old with less than 200,000 kms travelled), we will credit you or provide a replacement for any time it is off the road unexpectedly. Once your vehicle is over 12 months old, we will credit you for any time it is off the road after 96 hours for any unscheduled maintenance.
- ▶ **Free Driver Training:** Available with every new vehicle leased from TR Group. This means your drivers will be trained how to operate your vehicles as safely, efficiently, and compliantly as possible.
- ▶ **Rental "Fill In":** While you are waiting for your new lease vehicle to be built we will provide you with a rental vehicle at your lease rate.
- ▶ **End of the lease:** You have a number of options: The vehicle can be returned to TR Group with no further obligation, you can extend the vehicle for a further term, or you can replace your vehicle with a new one from TR Group.
